

FANS – Nordic SAS User Group

Meet your peers and build your network

fans[★]

sas[®]

SAS User Groups are a fantastic way to connect with fellow SAS users, exchange knowledge and experiences, and gain insights into SAS solutions from colleagues, peers, and SAS experts.

Whether you're an experienced SAS user with valuable insights to share or a newcomer eager to learn, joining a user group can help you maximise the benefits of your SAS technology.

User groups provide a unique platform to:

- Get immediate benefits from your time investment. When you return to work, you can implement the techniques and skills you've acquired.
- Discover practical solutions from other users and SAS professionals who have faced similar challenges.
- Connect with fellow SAS users and leverage local SAS resources.

FANS – Four Associations of Nordic SAS users

- Since 2005, various user groups in the Nordic countries have been organising events and activities for local SAS customers. In 2016, we unified these efforts under the brand FANS, enhancing the program's reach and impact.
- You can look forward to dynamic local network groups that meet regularly in person and virtually. We also host SAS Customer Days, where we collaborate on content tailored to your organization's needs.
- Additionally, we offer a range of online resources, including in-depth Ask The Expert Webinars, a Nordic Online Community, the option to request a 30-minute session with Meet the Expert, and access to presentations from Network Meetings across the region.
- Membership provides access to a broader network of peers and experts, facilitating networking and experience sharing.
- It also includes tickets to local SAS/FANS Events and international SAS Events (e.g. SAS Innovate), all part of a cost-effective membership package.
- Plus, you receive significant discounts on various SAS Training offerings.

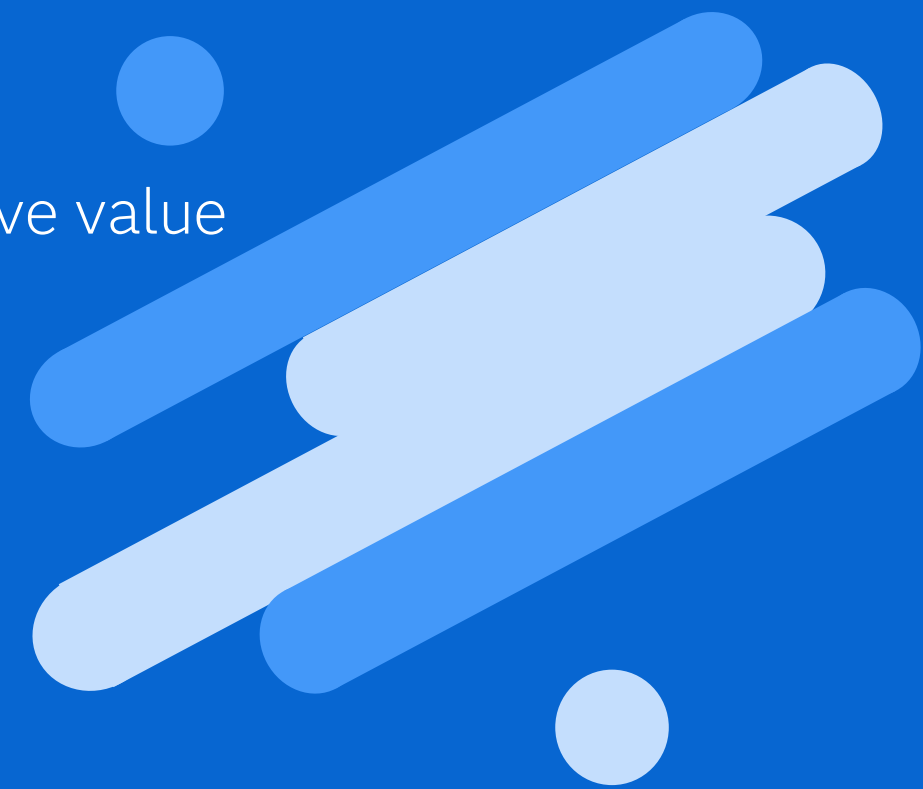

FANS – Company and Personal memberships 2025

Joining FANS comes with numerous perks; the 2025 package is outlined below. You'll receive value far exceeding the membership fee by fully engaging in all the activities.

- Engage in activities with hundreds of SAS® users from top Nordic brands.
- Present at SAS FANS Network Meetings and Events.
- Attend international SAS Events.

FANS Network Meetings 2025

The schedule for the network meetings is announced a month before each event based on requests from the members. You can expect demos and presentations from other peers, customer use cases, partners, and SAS experts. All in-person events include social networking. [See the complete overview and sign up.](#)

The Nordic network meetings are in English, while the country ones are mostly in the local language.

Most FANS Network Meetings are a hybrid between In-person and Virtual. This allows you to attend from wherever you're situated, although we are hoping to meet you face-to-face and be able to network and socialize.
